PRODUCT INTRODUCTION 产品特性

1、强度高，不变色、褪色，历久常新，使用寿命30年以上。

2、抗菌防火，耐热性能达到国家标准。

3、安装方便，装后效果紧密平整。

4、制造工艺精良，表面装饰层图案清晰，画面逼真附着牢固。

5、花样更新快，上百种规格，多种艺术图纹。

1、High intensity,colorfast,persistent new looking,service life more than 30 years.

2、Antibacterial fire prevention,heat-resisting performance meet the national standards.

3、Easy to install.good effect after installation.

4、Mantfacturing craft is excellent,pattern on the surface are clear and satable.

5、Pattems update fast,hunddreds of specifications,various art motifs.

| 抗老化	耐 热	高强度	耐腐蚀	不易变形
High intensity	Heat-resistant	High intensity	Corrosion-resistant	Impact-resistant

PVC Ceiling & Wall Panel Parameter

1	Thickness	5mm,6mm,7mm,8mm,8.5mm,9mm,9.5mm,10mm,12mm
2	Width	18cm,20cm,25cm,30cm,40cm,59.5cm,60cm,60.3cm
3	Length	2m,2.9m,3m,4m,5.8m,5.95m,or by customer require
4	Weight	1.8kg,1.9kg,2.3kg,2.4kg,2.5kg,2.7kg,3.0kg,3.5kg/SQM,or by customer require
5		35%,40%,45%,50%,55%,60%,65%,70%,75%,80% PVC

40CM & 60CM WALL PANEL

40CM & 60CM Wall Panels are hollow-core Decorative panels with hot stamping,printing or lamination surface,it is for any part of your home or office interiors.It is waterproof and very easy to clean, which makes them also ideal for bathrooms, toilets, kitchens, basements, garages and all other living areas.

ACCESSORIES

FIRE PREVENTION 防火

PVC产品以绿色环保的高分子复合材料为基材，经过特殊的机械工艺处理，符合GB8624-2012国家标准，阻燃性能达到B1级，具有极强的耐火性能，板材不燃烧，，不会产生有毒烟雾，无火焰传递。

PVC products are made from high polymer composite material of greenenvironmental protection through the special machiney craft.Comply with the national standardGB8624-2012, and they have reached combustion properties of B1.With strong fire resistance,noplate burning, no toxic fumes,no flame transmission.

MOISTURE-PROOF/NO DEFORMATION 防潮/不变形

PVC产品符合GB/T17657-1999《人造板及饰面人造板理化性能试验》要求。板材密度均匀，结构紧密，强度高，防潮，尺寸稳定，不变形，表面耐磨性能高，吸水厚度膨胀率低、静曲强度高、耐冷热循环、耐划痕、耐龟裂、耐污染、抗腐蚀、抗冲击强度高。

PVC products comply with the requirements of GB/T17675-1999《Test methods of evaluating the properties of wood-based pandls and surface decorate wood-basedpanels》The plate has the advantantages of density unifom,compact structure,high strength,moisture-proof,stable dimension,not deformation,higs surface abrasion resistance,low absorbentthickness expansion rate,high static bending strength,strface resistance to cold and hot cyclesurface scratch resistant,resistant surface crack,surfce pollution resistance,corrosion resistance,high impact strength.

ANTIMOTH/GAS DEFENSE AND ANTI-BACTERIA 防虫蛀/防毒抗菌

PVC产品绿色环保-表面色纸及背面平衡纸含浸特殊配方之树脂后，采用全自动生产线，经高温高压特殊生产工艺技术压制而成；板面平整、不变形、无气味、无辐射、免油漆。具有长期，安全高效的防虫蛀、防霉防菌功能，无甲醛释放量，对人体无危害，对环境无污染。

PVC panels are products of green environmental protection-Surface color paper andthe back balance paper containing a resin of special formulation,automatic profuction line,by hightemperature high pressure special production technology and pressing;flat plate surface,nodeformation no smell,no radiatin,free paint.With long-term,safe and dfficidnt insect bite,mildewand bacteria resistant,non formaldehyde to release a quantity,green environmental protection,no harm to humabody and no pollution to environment

DURABLE/EASY INSTALLATION 耐用/易安装

PVC产品安装便捷：可根据客户的规格分割各类尺寸。四边倒角后经特殊工艺处理，纹理和颜色与面板一致细节到位。公司同时提供安装型材及特殊粘胶，施工安装便捷、快速、系统的解决了集成化、模块化。施工后很难与实木、天然大理石区别，是一种高性价比的饰面板材。

PVC products are easy to instsss.-Size specifications can be separatedaccording tocustomer demand.After special technology processing,the texture and color of four chamfering are the same as the surface.The company also provides installtion profiles and specia;l glue to make the installation convenient and.And it solves the problem of integration and modulari zation.It is difficult to distinguish with wood and natural marble.It Is a decorative plate of highcost performance
